

COVID-19 Update - April 1, 2021 Easter Weekend and Moving Forward

Good afternoon Montcrest families,

Today's announcement from Premier Ford confirms that effective April 3, 2021 Ontario will move into an "emergency brake shut down" for a period of four weeks. Schools are staying open for the time being, but the government will continue to closely monitor and make adjustments as necessary.

As we head into the four day weekend ahead of spring break, I implore all of you to follow the guidelines and expectations outlined by the Government. If for any reason you are unable to follow the restrictions, or exhibit any signs or symptoms of being unwell, please participate in MGM next week to care for our entire community of students, teachers and staff. If you are uncomfortable sending your child to school at this time, please reach out and know that MGM continues to be there for your use.

Students head home everyday prepared for MGM in the event they can't attend school the next day but your teachers will be sending home additional materials assuming we do not return immediately after the April spring break. Each teacher will communicate necessary details with you as appropriate.

As always, please reach out with any questions or concerns. I hope that you all have a wonderful long weekend.

Thank you and take care,

Erin Corbett
Head of School
